Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, 3-7, and claims 10-15 partially, drawn to expression cassette, characterized in that it comprises a promoter obtainable from the region between the stop codon of the *yjaF* gene and the start codon of the *rpsF* gene as found on the *B. subtilis* genome, wherein said promoter comprises SEQ ID NO: 1, 2, or 3. Plasmid comprising said expression cassette, host cell comprising it and use thereof in a heterologous expression system are included.

Group II, claim(s) 2 and claims 10-15, partially, drawn to expression cassette, characterized in that it compress a promoter having the following characteristics: a) a nucleotide sequence TATAAT at the -10 site; (b) a nucleotide sequence TTGTAA at the -35 site; and c) a spacer of 17. +/- 1 nucleotides, more preferably 17 nucleotides. Plasmid comprising said expression cassette, host cell comprising it and use thereof in a heterologous expression system are included..

Group III, claim(s) 8 and 9, and claims 10-15, partially, drawn to expression cassette, characterized in that it comprises a promoter having a consensus sequence AAAANNNNNNTTTT_{Xn}AAAANNNNNNTTTT, wherein said promoter comprises SEQ ID NO: 7, 8 or 9. Plasmid comprising said expression cassette, host cell comprising it and use thereof in a heterologous expression system are included.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical feature of each group is different, since each group is drawn to distinct nucleic acid sequences having different structures.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nancy T. Vogel whose telephone number is (571) 272-0780. The examiner can normally be reached on 7:00 - 3:30, Monday - Friday.
